

— Play-2-Learn (2) —

“Play-2-Learn (2)” players will have had playing experience in both training and competitive environments. However, prior to entering the next level, “Learn-2-Play”, they may need work in one or more of the areas we deem fundamental to success in the program. Those areas can include but may not be limited to:

1. **Footwork (split step, recovery, etc.)**
2. **Balance (static & dynamic)**
3. **Mastery of the continental grip**
4. **Tactical understanding and execution**

Once they can consistently demonstrate proficiency in both competitive and training environments they have graduated to “Learn-2-Play”.
